

**PV-202 19mm/40m PVC, grey - Water cabinet**

---

## PV-202 19mm/40m PVC, grey - Water cabinet

Metal cabinet and hose reel combination designed for watering and washing purposes, suitable for indoor installation either as a surface-mounted unit or recessed using an available flush-mounting frame. These cabinets and reels are made of epoxy powder-coated steel sheeting, 1.25 mm thick for the fire hydrant cabinets and 1 mm thick for the hose reels. The reels are consistently painted red. Cabinets are available in three standard colors: white, grey, and red, with other colors available by special order. All cabinets feature a welded structural back wall and reinforced doors with adjustable steel hinges. The door is equipped with a special lock including a breakable lock protector. Doors open 180 degrees to allow free functioning of a hose reel installed on the door. The reel hubs are specially brass-molded and tested. Fire hydrant hoses comply with standard EN 694 and feature lightweight polyester weave reinforcement. The lightweight hoses operate at 1.2 MPa with a burst pressure of 9 MPa (+20C). Alternatively, fire hydrant cabinets can be equipped with a nitrile/PVC hose operating at 1.2 MPa with a burst pressure of 4 MPa (+20C). (Please refer to the product stats to confirm the assembled hose). While lightweight, the hose is not recommended for continuous use in cleaning heavily worn floor surfaces. A hose/nozzle holder prevents the hose from getting caught between the door. All cabinet models come with a spring-reinforced feed hose and include a direct/fog nozzle and 1 shut-off valve for fire hydrant cabinets.

### Features

|                          |                 |
|--------------------------|-----------------|
| EN 671-1 / 2012 approved | NO              |
| Hose type                | PVC             |
| Color                    | Grey (RAL 7040) |
| Length of the hose       | 40              |
| Hose inner diameter      | 19mm (3/4")     |
| Height (mm)              | 990             |
| Width (mm)               | 690             |
| Depth (mm)               | 290             |
