**PV-5/12 Fire extinguisher cabinet, grey \* -**

---

Fire extinguisher cabinets are made of 1.25 mm steel sheeting. The basic models are epoxy powder-coated in red, white or grey. The door is equipped with a special lock with a breakable lock protector. The stainless steel model has a metal lock. Fire extinguisher cabinets come in three sizes: for 6 kg and 12 kg powder fire extinguishers and for carbon dioxide fire extinguishers. Alternatively, there is a model with an inspection window. Fire extinguisher cabinets can also be installed outdoors to protect the extinguisher from the weather. If necessary, a flush-mounting frame is available for the cabinet.
