

Carbon dioxide fire extinguisher 2kg -

Carbon dioxide fire extinguisher 2kg -

CO2 fire extinguishers are suitable for extinguishing burning liquids, such as petrol, oil or grease. It is also ideal for extinguishing electrical appliance fires. Carbon dioxide extinguishes the fire by smothering it. The carbon dioxide snow generated by the nozzle and snow spout of the extinguisher enhances the extinguishing effect. CO2 does not conduct electricity, and it is frost resistant. The storage and operating temperature for the fire extinguishers is -30 C to + 60 C.
