

**PV-Fire hydrant hose 25mm textile**

---

€ / m

## PV-Fire hydrant hose 25mm textile

---

Price € / meter. NOTE! The nozzle and fittings are not included in the delivery. The lightweight hose is a fabric-surfaced and fabric-reinforced polyester/EPDM hose with a burst pressure of 9 MPa. The weight of the lightweight hose is approximately 30% of the weight of a corresponding nitrile/PVC hose. It is not recommended as a wash hose for abrasive floor surfaces. The burst pressure of the nitrile/PVC hose is 4 MPa. The hose is manufactured according to standard EN 694.

### Features
